“ This is his daughter Stephanie,  
Anyone who has known my dad closely will know just how aggravated my dad would get sometimes with his muscle dystrophy, and he would make a joke about it and then he would get tickled at his own self..lol... There was once he was trying to walk to his room and he fell and he had to scoot all the way to his room on his behind, well when we finally got him on the bed he pulled his self together and he said.. Sweetheart, do me a favor?.. When I'm gone, just put me in a wood box and throw me in the dirt.. Once I started laughing he got tickled.. We would make jokes about it often..I love my dad and I miss him so very much..go rest high on that mountain daddy!! I love you 🙏🥰😭💔
